1.1 Including Plots	1

1 Notebook example

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   :  2.00
##  1st Qu.:12.0    1st Qu.: 26.00
##  Median :15.0    Median : 36.00
##  Mean   :15.4    Mean    : 42.98
##  3rd Qu.:19.0    3rd Qu.: 56.00
##  Max.   :25.0    Max.    :120.00
```

1.1 Including Plots

You can also embed plots, for example:

Figure 1: R Markdown logo

Here is a logo

```
knitr::include_graphics("figures/rmarkdown.png")
```

What about this?

Table 1: A knitr kable table

speed	dist
4	2
4	10
7	4
7	22
8	16
9	10

```
cars %>%  
  head() %>%  
  knitr::kable(caption = "A knitr kable table")
```

More stuff:

Roses are red Violets are blue

Roses are red

Violets are blue

Roses are red

Violets are blue
